

# PMP Utilization Monitored

## Prescription Monitoring Program – PMP:

- Failure to check PMP is grounds for disciplinary action by the respective licensing board of each Prescriber.
- PMP must be checked at the initial prescription and then at least every 180 days. [63 O.S. §2-309D\(G\)](#)
- For best practice, the PMP should be checked more frequently than 180 days, but it is not required by 63 O.S. §2-309(D).

## Chronic Pain Prescriptions:

If continuing treatment for three months or more, practitioner shall:

- (1) review every three (3) months the course of treatment, any new information regarding etiology of pain and progress toward treatment objectives;
- (2) assess patient prior to every renewal to determine if patient is experiencing dependency and document assessment;
- (3) periodically make reasonable efforts, unless clinically contraindicated to stop, decrease dosage, or try other treatment modalities;
- (4) review PMP;
- (5) monitor compliance with patient provider agreement, and state “chronic pain” on the face of the prescription.
